Change eSystem Display language

The language on the eSystem can be changed very easily:

1. Press and hold both **MENU** and **SET** buttons for 6 sec.
2. On release the menu displays the languages.
3. Use **SET** to choose language.
4. The system will return to the previous screen after 6 sec. of inactivity.

Choosing the American language option switches the Temperature Display from °C Celsius to °F Fahrenheit.
