vSystem Installation

vSystem not compatible with this model

Unfortunately we have not found a way of installing a Scottoiler vSystem

on this model. Either no vacuum connection is available or accessing the vacuum connection takes professional help and a lot of time. For the moment we can only recommend fitting our electronic operated Scottoiler eSystem or xSystem instead.

xSystem Installation

General xSystem guide

The xSystem chain oiler is really easy to install and can be mounted on your bike is less than 1 hour. The installation consists of three simple steps:

- Find a place for the reservoir, either on the frame or under the seat
- Connect the reservoir to your battery
- Route the dispenser to your rear sprocket

For an example of the installation see our xSystem Installation Guide.

If you have our System installed on this specific motorcycle model, we would appreciate if you could send us pictures. With more pictures we can make the

installation even easier for all motorcyclists. Please send us your feedback and photos to technical@scottoiler.com.
