# How to set up your controller on Android + IOS

**The following guide will walk through how to set up your Remotek Controller on both Android and IOS devices.**

**Installation User Manual (Click Here)**

- **Set up on Android devices**
- **Set up on IOS devices**

**Android**

**On Android devices your controller is connected and set up via the Remotek Controllers app which is available on the Google Play Store. The video below is a walk through of how to connect, set up and select your desired app's for each of the controller profiles. (Map & Media/Roadbook)**

## IOS

**On IOS devices your controller is connected via the available Bluetooth devices list in your mobiles settings compared to via the app for the Android set up. The video below is a walk through of how to connect and set up your Remotek controller on an IOS device.**
